

BioBased Solvent

Corn & Soybean Derived

Patented blend of vegetable esters and biodegradable ingredients ideal for formulating paint strippers, resin removers, and industrial solvents. Made with biodegradable ingredients. This VertecBio Gold formula has a fresh fruity fragrance and can be used as a co-solvent in formulations.

- Ideal for Formulated Cleaners, and Resin Removers
- Fresh, Fruity Fragrance
- Flash Point Over 141 F
- Not Sara Reportable
- Excellent Solvency Power for Paints, Coatings & Inks
- Low Vapor Pressure
- 100% Biodegradable
- No Environmentally Hazardous Ingredients
- Excellent Solvency on Many Resins
- High Loading Capacity
- No ODC's---No Ozone Depleting Chemicals
- No HAP's---No Hazardous Air Pollutants
- No Global Warming Compounds
- Proprietary Formulation

Recognized As Environmentally
Preferable Chemistry

TECHNICAL DATA

Flash Point.....147 F ASTM D93 closed cup
Vapor Pressure.....0.64 mmHg @ 68 F
Specific Gravity.....0.927
Evaporation Rate.....0.08
Vapor Density.....4.3
Boiling Point.....298 F
CAS No:97-64-3 & 67784-80-9

U.S Patent No. 6,096,699
U.S Patent No. 6,191,087
