

## **VertecBio™ Citrus I20**

**Patented Bio-Based Solvent Cleaner**

### **Our Best Cleaner!**

#### **PROVEN PERFORMANCE IN A WIDE RANGE OF APPLICATIONS**

**Paint Line Flush:** A major US auto parts manufacturer has been using VertecBio Citrus I20 for the past 2 years to flush paint transfer lines and clean spray guns and related equipment.

Plant workers have commented, "Citrus I20 cleans faster and smells better than the MEK we used to use." And, "It's a powerful cleaner; I can reuse it several times and it still cleans well." And, "I like the fresh smell of oranges."

**Ink Cleaning:** A printing ink manufacturer, in the Northeast US, is using VertecBio Citrus I20 to clean his production equipment for solvent-based inks.

In fact, he liked it so much that he is now packaging the VertecBio Citrus I20 into quarts and selling it as a co-product to his ink customers.

Separately, the art department of a major Midwestern US University reports that VertecBio Citrus I20 works great for cleaning oil-based artists' inks!

**Adhesive and Resin Cleaning:** A major US adhesive tape manufacturer, a manufacturer of epoxy adhesives, and a machinery parts manufacturer who uses epoxy adhesives all agree, "VertecBio Citrus I20 is great for cleaning sticky stuff!" And, "We are very happy to be rid of the toxic ketones used previously!"

**You and your employees can also enjoy the powerful cleaning action of VertecBio Citrus I20, without the hazards associated with most petrochemical-based solvents. Contact us today to learn how!**

**U.S Patent No. 6,797,684**
