

VertecBio™ EL Ethyl Lactate

Features

- **100% bio-based solvent – reduce Greenhouse Gas Impact**
- **Sustainable chemistry – made from renewable resources**
- **100% biodegradable to Carbon dioxide and water**
- **FIFRA 25 (b) listed (EPA listed for unrestricted use on food crops)**
- **FDA approved as a flavor additive**

Benefits

- **High performance, versatile bio-based solvent for formulating**
- **Precision bio-based cleaning solvent that leaves no residue**
- **Excellent solvency for paints, coatings, and inks**
- **Low vapor pressure and high loading capacity**
- **100% water miscible for dilution at time of use**

Environment

- **No Global Warming compounds**
- **Not California Proposition 65 listed**
- **No HAP's – No Hazardous Air Pollutants**
- **Not SARA 313 reportable**
- **Please refer to the SDS for safety, health and environmental data**

TECHNICAL DATA

Flash Point	133° F ASTM D93 closed cup
Vapor Pressure.....	1.7 mmHg @ 68° F
pH of Water Dispersion.....	4.0
Specific Gravity.....	1.03
Evaporation Rate.....	0.22
Boiling Point	309° F
CAS Nos.	97-64-3; 687-47-8

Superior Performance Through Sustainable Technologies!
