

VertecBio™ ELpine 118

Blend of Bio-Based Solvents

Features

- High solvency replacement for petroleum-based solvents
- Rinses with water without costly surfactants
- Sustainable chemistry – made from renewable resources
- 100% Biodegradable

Benefits

- Efficient for vessel cleaning, tank trucks, ISO tanks, reactors, storage tanks
- Synergy when blended with other solvents, formulating ink cleaners, adhesive removers, hand wipes, paint strippers, and graffiti removers
- Ideal for flushing paint lines, cleaning spray guns and cleaning paint booths
- Effective on most polyurethane, enamel and UV curable coatings
- Very good for formulating floor-stripping products to remove polymers and polishes

Environment

- No global warming compounds
- Not California Proposition 65 Listed
- No HAP's – no Hazardous Air Pollutants
- Not SARA 313 reportable
- Made in the USA

TECHNICAL DATA

Flash Point	120 °F ASTM D 93
Vapor Pressure.....	2.5 mmHg @ 68 °F
Vapor Density.....	> 3
Specific Gravity.....	0.941
Evaporation Rate.....	0.25
Initial Boiling Point	266 °F
